

Dear Tony,

I'm very pleased to announce that our showroom in the 2008 Athnes High End Show, has been one of the best 3 according to the votes of independant visitors.

Tonian Labs, once again, has received the highest remarks on the sound, quality and finish of its products (Classic 12.1S).

I attach some pictures of the audio system playing.

I think that Tonian Labs products has, at last, gained its desserved place in the Greek audio market. I have already made appointments with potential customers for more thorough audio presentation.

Kind Regards,
Christos
